

Mid-Michigan Honor Flight

Mission XVIII – May 7-8, 2024

A PRAYER FOR VETERANS

Proud of our nation,
they answered her call,
defending the freedom
and safety of all.

On land or on sea,
or in jets high above,
they went out of duty
and honor and love.

But however they served, Lord,
wherever they went,
please bless them
and help them
to know what it meant.

And help us to thank them
on their Honor Flight day,
for we owe them far more
than we ever could say.

God's blessings to you!

Acknowledgments

First and foremost, we remember, thank, and praise every Veteran that has ever served, sacrificed, and defended our Nation and our Freedoms! The Board of Directors of Mid-Michigan Honor Flight would like to take a moment and offer a Special "Thank You" to the volunteers, donors, and businesses that made Mission #18 a success. Our Hero Honorees, and their Guardians were treated to "The Trip of a Lifetime". This first-class event was made possible by the dedication and hard work of the Mid-Michigan Honor Flight Board of Directors and our Flight Support Staff. To our many Volunteers, MMHF gratefully acknowledges your time, dedication, and hard work, we could never complete a Mission without you.

Our Special thanks to: Gerald R. Ford Airport employees, Meijer Family Foundation, Tee See Tees, Coins with Pride, B & B Printing, Project Hero Hugs, Leprino's, Ice Mountain, and all of our other Donors.

The number of hours put into a single Honor Flight Mission is mind-boggling. Between 2,000 and 2,500 volunteer hours were dedicated to making Mission #18 a resounding success. Our Staff and Volunteers again delivered the Trip of a Lifetime to our Veteran Honorees! Our simple directive "What is the best choice for our Veterans" drives us to make every Mission better than the last. We are able to make each Mission come together because of the generous and loving commitment that everyone contributes to our Nations Heroes.

Our thoughts and prayers are with the families of our two 106-year-old WWII Veterans that graced us with their presence on this flight. Robert Holt joined us in person on this flight and is the oldest Veteran to have flown with us. Irene Hosking was unable to join us in person due to health issues, however she was with us in spirit and by photograph. Both of them passed away in August 2024.

The Tootsie Roll Tale

For too many Americans, November 11th signals “that 3-day weekend before Thanksgiving.” Others know it’s Veterans Day and feel it deeply. But for many people, Veterans Day is a vague and fuzzy concept, lacking a compelling memory; a story, a visual aid; something tactile to focus on. Those are the ones you want to hand a piece of candy to. A couple of weeks before Veterans Day buy a bag of those tiny Tootsie Rolls, the ones called *Midgees*. Put some in your pocket and begin handing them out, along with this story:

After World War II, the Korean peninsula was divided into the communist North and the democratic South. While South Korea was recovering and rebuilding, North Korea was arming to the teeth, receiving countless tons of

weapons, munitions and war supplies — and encouragement to use them — from Mao’s China and Stalin’s Soviet Union. In June of 1950, North Korea invaded the lightly-defended South with infantry, tanks and artillery, nearly rolling up the entire country. South Korea had no tanks, anti-tank weapons or artillery. Then a coalition of UN member nations, led by the US, intervened.

After weeks of bitter fighting, North Korean forces were pushed ‘way back over the border at the 38th Parallel. For a brief and shining moment, it

appeared the invasion had been defeated — and the North’s Russian and Chinese sponsors had taken a slap in the face. Mao’s response shouldn’t have come as a surprise, but it did. He sent a million-man army against the allies.

A VETERANS DAY STORY

THE FROZEN CHOSIN

By November 26, 10,000 men of the First Marine Division, along with elements of two Army regimental combat teams, a detachment of British Royal Marine commandos and some South Korean policemen were completely surrounded by over ten divisions of Chinese troops in rugged mountains near the Chosin Reservoir. Chairman Mao himself had ordered the Marines annihilated, and Chinese General Song Shi-Lun gave it his best shot, throwing human waves of his 120,000 soldiers against the heavily outnumbered allied forces. A massive cold front blew in from Siberia, and with it, the coldest winter in recorded Korean history. For the encircled allies at the Chosin Reservoir, daytime temperatures averaged five degrees below zero, while nights plunged to minus 35 and lower.

Jeep batteries froze and split. C-rations ran dangerously low and the cans were frozen solid. Fuel could not be spared to thaw them. If truck engines stopped, their fuel lines froze. Automatic weapons wouldn’t cycle. Morphine syrettes had to be thawed in a medical corpsman’s mouth before they could be injected. Precious bottles of blood plasma were frozen and useless. Resupply could only come by air, and that was spotty and erratic because of the foul weather.

High Command virtually wrote them off, believing their situation was hope-

less. Washington braced for imminent news of slaughter and defeat. Retreat was hardly an option; not through that wall of Chinese troops. If the Marines defended, they would be wiped out. So they formed a 12-mile long column — and attacked.

There were 78 miles of narrow, crumbling, steeply-angled road — and 100,000 Chinese soldiers — between the Marines and the sea at Hungnam. Both sides fought savagely for every inch of it. The march out became one monstrous, moving battle.

The Chinese used the ravines between ridges, protected from rifle fire, to marshal their forces between attacks. The Marines’ 60-millimeter mortars,

capable of delivering high, arcing fire over the ridgelines, breaking up those human waves, became perhaps the most valuable weapon the Marines had. But their supply of mortar rounds was quickly depleted. Emergency requests for resupply were sent by radio, using code words for specific items. The code for 60mm mortar ammo was “Tootsie Rolls” — but the radio operator receiving that urgent request didn’t have the Marines’ code sheets. All he knew was that the request came from command authority, it was extremely urgent — and there were tons of Tootsie Rolls at supply bases in Japan.

Tootsie Rolls had been issued with other rations to US troops since World War I, earning preferred status because they held up so well to heat, cold and rough handling compared to other candies.

Tootsies From The Sky

Tearing through the clouds and fog, parachutes bearing pallet-loads of Tootsie Rolls descended on the Marines. After initial shocked reactions, the freezing, starving troops rejoiced. Frozen Tootsie Rolls were thawed in armpits, popped in mouths, and their sugar provided instant energy. For many, Tootsie Rolls were their only nourishment for days. The troops also learned they could use warmed Tootsie Rolls to plug bullet holes in fuel drums, gas tanks, cans and radiators, where they would freeze solid again, sealing the leaks.

Over two weeks of unspeakable misery, movement and murderous fighting, the 15,000-man column suffered 3,000 killed in action, 6,000 wounded and thousands of severe frostbite cases. But they reached the sea, demolishing several Chinese divisions in the process. Hundreds credited their very survival to Tootsie Rolls. Surviving Marines called themselves “The Chosin Few,” and among themselves, another name: *The Tootsie Roll Marines*. Join me in sharing their story — and some Tootsie Rolls. Connor OUT

To our veterans ...

They took our orders, put us on bus and took us to the airport where I got new order for Germany. Good Conduct. A National Service Medal.

Welcome Home

I watched a young soldier take his seat on the plane.
The guy by the window said, "son what's your name?"

He said, "Hi I'm Jimmy, just back from overseas
and when these boots touch down in Texas, I'm gonna drop to my knees.

Because I ain't seen my wife in 18 months and 14 days."
The man smiled at him and said, "well let me be the first to say:

Welcome Home, Welcome Home,
It's good to have you back where you belong.
You fought hard for this land you love,
and I thank you for all of us.
We're proud to call you one of our own,
welcome home."

Then the man looked away and said, "I know how you must feel.
I spent two long years in Vietnam and I got back to Jacksonville.
There were protest sign and picket lines and some girl spit in my face.
Hey I was just a kid tryin' to make this world a safe place."

Then his voice started trembling, in his eyes I saw a tear.
He said, "I didn't need a hero's welcome but it'd been sure nice to hear..

Welcome Home, Welcome Home,
It's good to have you back where you belong.
You fought hard for this land you love,
and I thank you for all of us.
We're proud to call you one of our own,
welcome home."

Well the band was playin,
and the crowd was cheering,
as we came walking through that gate.
Then the soldier stopped and turned to the man
standing near him,
he saluted him and said, "Sir I know it's a little late but...

Welcome Home, Welcome Home,
It's good to have you back where you belong.
You fought hard for this land you love,
and I thank you for all of us.
We're proud to call you one of our own,
Welcome home....."
